Projects

Smart Energy Consumption Dashboard

- Built an interactive dashboard to analyze household energy usage patterns and identify peak consumption trends.
- Created KPI-driven visualizations to support energy efficiency monitoring and data-driven insights.
- Cleaned and transformed raw energy data into meaningful metrics for effective analysis.
- Designed an intuitive dashboard with filters for easy exploration of consumption behavior.

Employee Performance Dashboard

- Developed an HR analytics dashboard to monitor employee performance, productivity, and department-wise trends.
- Designed interactive visuals to identify top performers and performance improvement areas.
- Created KPI metrics and comparison charts to support HR decision-making.
- Built a professional dashboard interface for clear workforce performance analysis.

Super Store Sales Dashboard

- Built a sales dashboard to track revenue, profit, and product performance across different regions.
- Created interactive charts to analyze sales trends and customer purchasing behavior.
- Designed KPI-based visuals to simplify business performance monitoring.
- Developed a user-friendly dashboard to support sales-focused decision-making.

Experience

Data Analytics Intern | Novitech R&D Pvt Ltd | Sep 2024 – Nov 2024

- **Data Analysis & Preprocessing:** Performed exploratory data analysis and transformed raw structured datasets into meaningful business insights.
- **Dashboard Development:** Designed interactive Power BI/Tableau dashboards for KPI tracking, performance monitoring, and business decision-making.
- **Reporting Automation:** Automated reporting workflows using Python and SQL, reducing manual effort and improving reporting efficiency.
